Inspiration TALKS

2018 AO Corporate Forum

Thursday, March 1

8:00 am - 12:00 pm

Los Angeles Convention Center

Room 408B

Moderator: Jacinthe Paquette, DDS

Patient satisfaction: The true measure of care

The value of advancements in technology, techniques, and teamwork can only truly be measured by the patient's level of satisfaction throughout their care and with their treatment outcome over time. This morning's sessions will provide insight to bringing all of these aspects together with the patient in mind.

8:00 am	Implant solutions for the edentulous patient: Making the right decisions	Mark Montana, DDS
9:00 am	Digital workflows: Planning principles and pearls for the edentulous patient	Mark Ludlow, DMD, MS
10:15 am	Full-arch reconstruction for edentulous or patients with terminal dentition	Homa Zadeh, DDS, PhD
11:00 am	Putting it all together: Implant restoration of the edentulous patient	Lyndon Cooper, DDS, PhD

SmartFix® concept

Now available for Astra Tech Implant System EV

What sets the SmartFix concept apart, is how it all comes together.

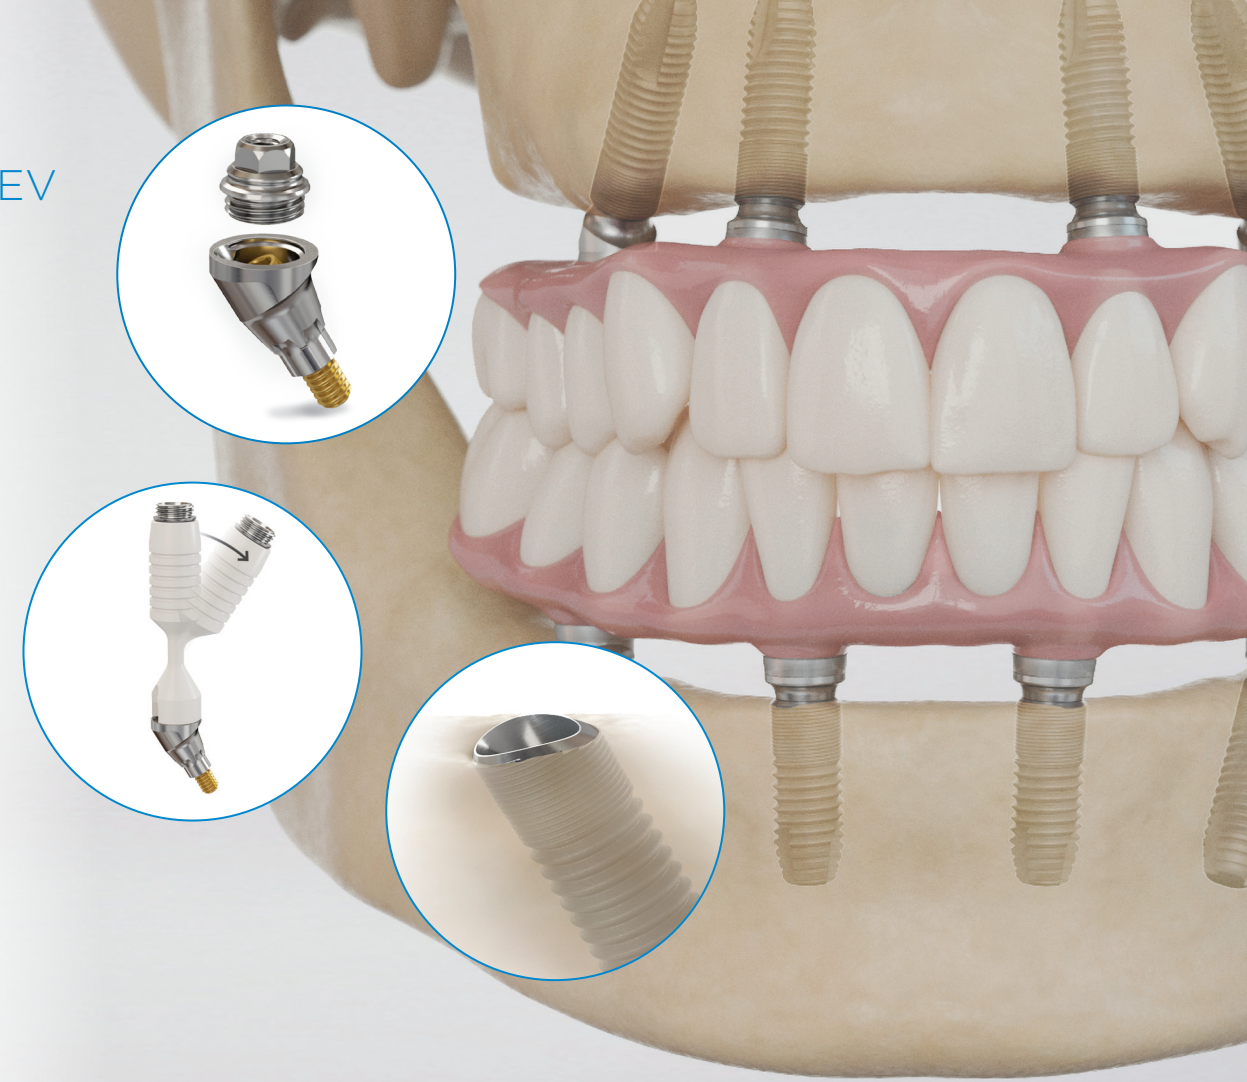

Other companies left some important details out of their full-arch-on-four solution.

But Dentsply Sirona Implants' SmartFix concept for the Astra Tech Implant System EV is designed with attention to the smallest details—creating innovations that make a big difference in helping you avoid workarounds, while achieving optimal outcomes for your fully edentulous patients.

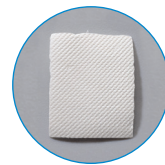

- Unique two-piece abutment design for a stronger connection
- Short, flexible abutment holder for easier abutment seating
- Sloped OsseoSpeed Profile EV design for better alignment of the implant to the anatomy when placed at an angle

Tired of complex workaround?

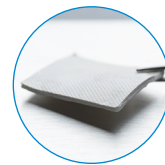

Visit booth #301 and see our SmartFix for that!

Available now

OSSIX® PLUS

OSSIX® VOLUMAX

OSSIX® BONE

Symbios® + OSSIX®

Regeneration, inspired.

- Staying true to nature, Symbios products provide a stable foundation for achieving esthetic clinical outcomes.
- OSSIX, the ossifying brand, features the proprietary, natural cross-linking Glymatrix™ technology in OSSIX Plus, OSSIX Volumax and OSSIX Bone, with documented, long-term results.
- Together, Symbios + OSSIX are redefining regeneration and will make this combination portfolio a desired choice of regenerative industry leaders.

Visit Booth #301 during the times below for a meet & greet with the developers of the unique OSSIX products and learn more about this winning combination with Symbios to achieve superior regenerative results!

- Thursday lunch 12:00-1:00pm
- Friday morning break 9:45 - 10:15 am
- Friday afternoon break 2:45 - 3:15 pm
